

# Fibre discs

blue line

# Product range sia fibre discs

## Characteristics of the product

- high performance for stock removal
- firm fibre backing
- consistent cutting speed due to the high form retention
- economical due to long life of product
- low noise
- wide grit range available
- aggressive cut due to special structure of the coated abrasive
- colour identification of the product guarantees the right product for the right application
- flexible back-up pad allows ideal grinding of uneven surfaces

## Main application

- for use on all popular types of angle grinder
- rough and heavy duty grinding
- deburring and dressing castings
- rust removal
- dressing welded seams

## Product description

	4700 siaral 8	4815 siacut	4819 siaron 8	4919 siaral 8	4924 siamet
Colour (grit side)	black	green	blue	red/brown	red/brown
Material	cast iron stone glass	stainless steel titanium	carbon steel construction steel	non-ferrous metals mild steel	non-ferrous metals mild steel
Type of grit	Silicon carbide	Zirconia alumina or high performance aluminium oxide	Zirconia alumina or high performance aluminium oxide	high performance aluminium oxide	high performance aluminium oxide
Application	heavy duty	heavy duty	heavy duty	heavy duty	light
Grit range	16 to 320	36 to 150	24 to 120	16 to 120	16 to 120

## Item numbers for fibre disc back-up pads

		Ø 115 mm	Ø 125 mm	Ø 180 mm	
Thread M14		T7001.0115.8	T7020.0125.1	T7022.0180.1	
Thread 5/8"			T7023.0125.1	T7023.0180.1
