

Now things will run smoothly– with the new
sia Abrasives flexible hand sanding block

blue line

Are you ready for the new variety of forms?

Sanding on convex parts

Sanding on concave parts

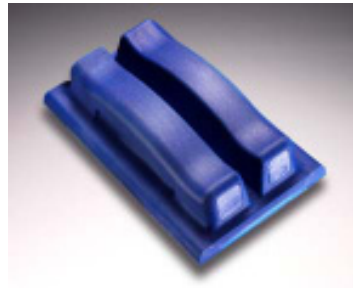

Advantages

- ✓ **Optimum adjustment to critical curves**
- ✓ **A perfect, flat finish**
- ✓ **Reduction of undesired sanding grooves**
- ✓ **Dust free working process, thanks to direct suction**

Modern car-body shapes, with their multiple curves, set special demand in connection with workmanship and tools.

The new, flexible hand block offer you huge advantages when sanding concave and convex surfaces. Our development simplifies your daily work.

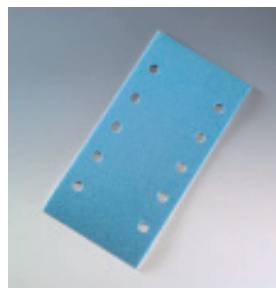

Test ...and learn to love the new curves!
