

# A sure footing on every occasion

siaway – the self-adhesive anti-slip tape

## siaway – safety every step of the way

Smooth, wet or oily surfaces are a major safety hazard. Slip-resistant floor coverings help minimize the risk. Suitable for universal use, the siaway 5770 anti-slip tape is the safe and cost-effective way to prevent accidents caused by tripping, slipping or falling. siaway meets the strictest material requirements and can be used in industrial, commercial and private areas – quickly and easily!

### Advantages

- Ideal for vehicles, building services, scaffolding, stairs, ramps, etc.
- Long-lasting under heavy-duty conditions thanks to extreme resilience
- Special adhesive provides outstanding grip
- Suitable for universal use inside and outside (UV-resistant)
- Weighs up to 20% less than conventional products
- The low thickness of the tape ensures that it can be traversed easily by vehicles and eliminates the risk of tripping
- Optimum resistance to water

We would be pleased to send you data sheets, test reports and certificates.
